Communication that you need!

THE TRANSLATIONS-INTERPRETINGS.COM MSOC GROUP INVOLVES DIRECTLY LANGUAGE PROFESSIONALS: CANCELLING ADDITIONAL COSTS.

managed by language professionals.

The Hagen-based
**TRANSLATIONS-
INTERPRETINGS.COM
MSOC GROUP** consists of
an international fast
growing network of offices
– current 3 by 2007 –

Except this presence **in countries where the languages are spoken and cultures are lived**, the above mentioned direct involvement of translators and interpreters in the production of multilingual communication services - who are the most important part in this production - **allow us to cancel any additional costs (middleman fee, etc.)**.

TRANSLATIONS-INTERPRETINGS.COM MSOC GROUP: WHEN INTERCULTURAL COMMUNICATORS IMPROVE QUALITY AND REDUCE COSTS!

Of course are processes and tools important, but not exclusively.
**TRANSLATIONS-
INTERPRETINGS.COM
MSOC GROUP** is
persuaded that if the
offices won't manage by
translators and/or interpreters, who are
delighted with the language and its subtleties,
surely nobody can expect high quality. The
competent translators and interpreters
continue to be **the most important part** to
ensure high quality and cost-effective
translations.

Additionally, the translators and interpreters
are the only part which mediates at the same
time beside languages also cultures ensuring
the best possible communication between
people or rather countries. They won't call
without reason **intercultural
communicators**.

The **TRANSLATIONS-
INTERPRETINGS.COM Quality Seal** may
not be copied and/or used without permission.
The copy and/or use is permitted only to
offices, which are members of the
**TRANSLATIONS-INTERPRETINGS.COM
MSOC GROUP**.

TRANSLATIONS-INTERPRETINGS.COM MSOC GROUP: TRANSLATORS AND INTERPRETERS IN DIRECT CONTACT WITH THE CLIENT.

By contacting the **TRANSLATIONS-INTERPRETINGS.COM MSOC GROUP** the client has the opportunity and honour to **speak directly to our language experts - including our office managers - who are always standby with all their energies and loves in one of our offices** - unlike many of our competitors who only work with freelancers creating an availability problem.

The contacted translator and/or interpreter may be constantly consulted and is available, even outside office hours - if necessary. Because of his/her **specialized language competence and subject- as well as culture-specific knowledge**, he/she is even able to understand the processes well and to answer all the client's questions.

This direct communication with our translators and interpreters - who are directly involved in the translation processes, etc. - allows the client to select quickly or immediately according to his/her needs or rather makes it **easier to find quick or immediate solutions** to problems concerning translation, updating, data transmission, computer compatibility, last minute changes, etc.
